## Skills

### Overview

### Programming

0 LOC —————> 5000 LOC

Matlab

Solidworks

C Sharp

## Projects

### Aerodynamics and Flight Mechanics -

Complete study of the behavior of an airplane airfoil

**Control and Guidance** - Design Matlab programs to study different transfer functions corresponding to different aircraft

**Electronics** - Design and implementation of a prototype for a temperature alarm system using of basic components and Arduino

## Education

2012 - 2014 **High school in science**

IES La Garrotxa, Olot

Currently

**Bachelor's degree in air navigation engineering** Polytechnics University of Catalonia, Barcelona

## Degrees

2012 **First Certificate in English (B2)**

Cambridge

2012 **Sambori-Ómnium Literary Award**

Girona

2010-2014 **English courses**

England and Ireland

## Experience

2016 **Secretary in Krode SA**

Olot

Currently

**Student in practice in CTTC**  
Catalonia, Castelldefels

Technological Telecommunication Center of

## Others

Currently

**Car licence type B**
